

Welcome Every.Org Quick Start

Welcome!

You're just a few minutes away from creating your own **Support My Healing** page.

Whether you're facing cancer, supporting a loved one, honoring someone's memory, or raising funds to advance BeatCancer's mission, this guide will help you get started quickly.

In about **10 minutes**, you'll:

- Create your Every.org account.
- Set your fundraising goal.
- Publish your Support My Healing page.

That's all it takes to get your page online.

Don't worry about making everything perfect.

You can always return later to add photos, tell more of your story, post updates, and personalize your page as your journey unfolds.

We've intentionally kept this guide short and focused so you can take action without feeling overwhelmed.

When you're ready to build a stronger campaign, you'll find additional ideas, inspiration, and practical guidance throughout the rest of the **Support My Healing Resource Library**.

For now...

Let's get your page online.

Turn the page and let's begin.

Step 1

Create Your Every.org Account

The fastest way to get started is by visiting BeatCancer's official Every.org page.

<https://www.every.org/beatcancer>

From there:

- Select **Start a Fundraiser**.
- Create your Every.org account (or sign in if you already have one).
- Follow the prompts to begin building your Support My Healing page.

By starting from BeatCancer's Every.org page, you won't need to search for BeatCancer during setup.

Once you're signed in, you're ready for Step 2.

Pro Tip

Bookmark BeatCancer's Every.org page. You'll use it in the future to access your fundraiser, post updates, and monitor your progress.

Before Moving On

- ☐ My Every.org account has been created.
- ☐ I am signed in and ready to create my fundraiser.

Turn the page to continue.

Step 2

Choose Your Fundraising Goal

Every Support My Healing page includes a fundraising goal.

We recommend starting with **\$2,500**.

Why \$2,500?

Because it represents the approximate cost of providing one person with BeatCancer's education, guidance, and holistic support.

It's a meaningful goal, but don't worry if your circumstances are different. Your fundraising goal can always be changed later as your campaign grows.

Once you've entered your goal, continue to the final step.

Pro Tip

Don't spend too much time deciding on the perfect amount.

The important thing is to get your page published. You can always adjust your goal later.

Before Moving On

☐ My fundraising goal has been entered.

Turn the page to publish your page.

Step 3

Publish Your Support My Healing Page

Congratulations!

You're only one click away from sharing your Support My Healing page with the people who care about you.

Before publishing, take a moment to preview your page to make sure everything looks the way you'd like.

Remember, your page doesn't have to be perfect.

You can return at any time to update your story, add photos, change your fundraising goal, or post updates for your Circle of Hope.

When you're ready, select **Publish**.

That's it!

Your Support My Healing page is now live.

Take a moment to celebrate—you've taken an important step toward building your Circle of Hope.

Congratulations!

In about 10 minutes, you've:

- ✓ Created your Every.org account.
- ✓ Set your fundraising goal.
- ✓ Published your Support My Healing page.

Your page is now ready to be shared with family, friends, coworkers, neighbors, and anyone who wants to support your journey.

What's Next?
